

# Resourceful Upcyclers Sprint 5 Plan

Resourceful Upcyclers Team

Sprint 5 Start Date: 4/9/2018

Sprint 5 Completion Date: 4/22/2018

Version 2.0 : 4/8/2018

## Goal

Allow customers to browse through multiple separate businesses (donate, and view offers from them). Allow owners to setup a new business, host their inventory, and accept donations. Allow customers to see notifications on the site when their donations' statuses have been changed. Revamp the landing page and initial UI elements a user sees when loading up the homepage.

## Task listing by User story

1. As a customer, I want to be able to browse through multiple businesses on the Resourceful Upcyclers site so that I can view a larger selection of items. (17 points)
  - a. Separate 2 signup pages (customer and owner), have owners either put in existing business key, or create a new business (name, location of warehouse, pics, etc.) while signing up for their owner account. (7 points)
  - b. Create over-arching splash page to see all businesses a customer or guest can browse through (3 points)
  - c. Use existing splash page for each individual business profile, loading in the information from what the owner enters (4 points)
  - d. Have owners, donations, and inventory tied to a specific business (3 points)
2. As a customer, I want to see a notification for updates to my donations so that I can keep up with when my item's status changes (9 points)
  - a. Create alert model and trigger alert creation at needed times (4 points)
  - b. Display alerts using sb-admin alert example code (2 points)
  - c. Create ability to mark alerts as read/delete alerts (3 points)
3. As a user, I want an aesthetically pleasing splash page and uniform theme so that I don't get bored looking at a black-and-white page. (6 points)
  - a. Distinguish homepage to have more apparent visual differences (4 points)
  - b. Explore possibility of using more templates (2 points)

## Team roles

Sean Gordon - Project Owner, Developer

Riley Honbo - Developer (Scrum Master)

Ryan Schouweiler - Developer

Andrew Johnson - Developer

### Initial task assignment

Sean Gordon -

- 1a, d

Riley Honbo -

- 3a-b

Ryan Schouweiler -

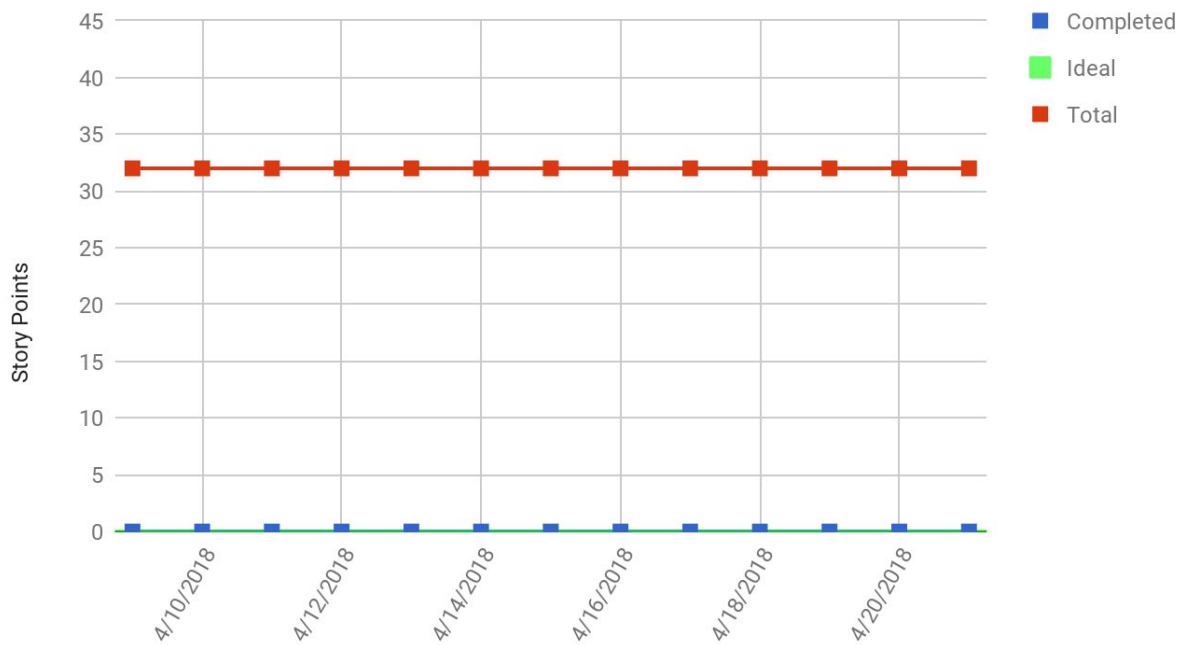

- 2a-c

Andrew Johnson -

- 1b, c

### Initial burnup chart:

**Burn Up Chart**

### Scrum times

Mon 3-4pm

Tues 1:30-3pm (Sponsor Meeting w/Todd)

Thurs 2:50-3:50pm (TA Meeting w/Dylan 3:20-3:50pm)
