

Definition of Done

Task:

- Unit tests pass
- Code follows style guide
- Code pushed and merged to master branch

User Story (or Feature):

- All tasks for user story complete
- User story can be followed (it's tasks work together)
- Integration tests pass

Sprint:

- User Stories completed/Major Goals completed
- No one feature conflicts with another (i.e. no user story causes another one to break)
- Product could "potentially" be given to sponsor

Release:

- System test passes
- Acceptance Test passed
- Sponsor approval
